

FASTFORMS

SOLUTIONS:

FastForms makes it easy to create and distribute mobile forms to teams and devices... and saves the world from paperwork, one customer at a time. No more need to capture and recapture data from paper-based forms into applications...with FastForms the information transfer process is automated and seamless.

Our customers use FastForms for checklists, surveys, inspections, audits, job reports, site reviews, trip logs, pre-project reports, project wrap ups, equipment checks, and so on.

FastForms not only reduces paper waste, it also improves data quality, integrity, and security. We also make it simple to collect and submit things that were complicated before — like photographs, audio recordings and bar codes. And our enterprise integrations and workflow features make it easy to automatically build workflows and communications rules that keep your team and your clients in the loop. And because we capture everything through your mobile device, you don't have to deal with the hassle of processing and organizing thousands of pieces of paper — this means a happier team and a healthier planet!.
